

## RENEWED COMPANY IMAGE WITH NEW STATE-OF-THE-ART WEBSITE PROVIDING COMPREHENSIVE INFORMATION ON CERBIOS' ACTIVITIES

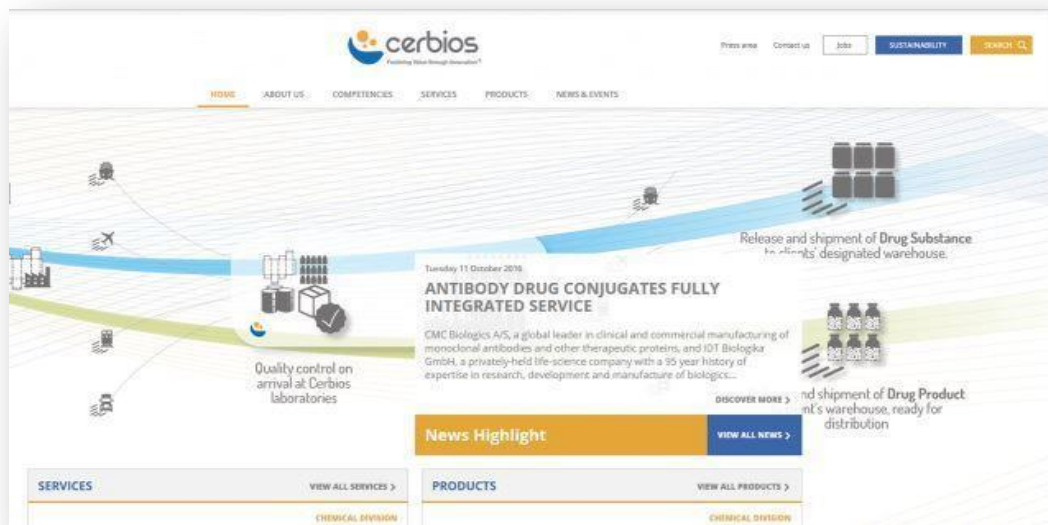

Lugano, October 20<sup>th</sup> 2016

We are proud to introduce the completely refurbished company website that gives a much better overview about our services, competences and products.

On top of that we have, of course, renewed the cosmetics and added more multimedia information from Pictures to Videos also in the company brochure and sustainability report.

The highlights of the new site are:

1. **INNOVATIVE**  
showing all company competences, services, products, news all related one to the other depending on the topic of interest.
2. **MODERN**  
not only from the graphical point-of-view but also in terms of navigation experience while exploring the interest points
3. **RESPONSIVE**, allowing the navigator to find the information and read it on tablets and smartphones

We hope you will enjoy the new tool that will enable you to better understand our company, what we do and what we have done in the past.

### About Cerbios-Pharma SA

Cerbios is a privately held company located in Lugano, Switzerland, that specializes in the development and manufacture of both chemical and biological APIs for its partners world-wide. Exclusive, third-party manufacturing services are offered by the Chemical Division for HPAs and by the Biological Division for monoclonal antibodies, recombinant proteins and pharma probiotics. Cerbios provides full CMC support to its world-wide partners, including the supply of cGMP clinical batches, registration/validation material and commercially manufactured APIs. Paramount to this is the ability to supply all of the technical documentation and support necessary for a successful registration. Cerbios' commercial products are marketed worldwide but primarily in Europe, USA, Japan and India.
